

Mars Class

Dear Parents and Carers,

Welcome back to the start of a new term and a new year. I am excited to see what 2023 has in store for us.

Our topic this term is Planet Earth and so all of our work will be based around this.

In English, we will be using the book *Kensuke's Kingdom* to explore the landscape and write an extended story of what it would be like being washed up on a deserted island.

In Geography, we will be learning about the biomes and vegetation belts across the globe and the habitats and creatures. We will also be looking at some of the threats these places face, whether they are natural or manmade.

To link in with our work on biomes, in science we will be learning about the life cycles of plants and animals.

As part of the work on threats to biomes we will be making our own sea creatures out of recycled materials. If you have any recycled plastic (especially bottles) or crisp/sweet wrappers please could you send them in.

Any questions, please feel free to contact me or speak to me at drop off/pick up.

Kind Regards

Mrs Youngman and Mr Arlow

Weekly Event

Tuesday– PE
